**Subject:** Fw: Compliment to Interface Construction Company

Sam,

See email below from our Nurse Managers !!

Our Nurse Managers probably have the toughest jobs at St. Mary's and for Interface to receive this compliment really says a lot on how Interface made this project somewhat painless

Please pass this on to your staff with my **Thanks !**

Again and again Interface has surpassed SSM expectations with budgets, schedules etc.

I always receive compliments on how courteous and responsive your staff has been on our numerous projects

Thanks Jim Baker

Dear Jim,

We would like to send our profound thanks to you for selecting Interface Construction Company as our rehab and remodeling group . Over the past several months, we have spent a great deal of time together,they were an absolute pleasure to deal with.

They always put our patients first and were extremely accomodating both to our patients and the Nursing Staff.

They knew us all by names and we learned theirs as well. In my 25 plus years at SMHC and dealing with Construction projects, this company far outshone any one I have ever dealt with individually and as a group.

I didn' meet one person with a bad attitude or a unpleasent demeanor.

They worked with us every step of the way to deal with our timing issues and to achieve our mutual desired outcomes.

Gary Hart was outstanding as the superintendent and was always readily available.We came to know many others who were just as great to work with,Pat,Earl, Stacy,and many others.

Thanks for choosing such a great group.Please forward this to their boss so that he/she knows our thoughts.

I am writing on behalf of myself, Nancy Yurchak, Jean Brontoli, Karen Mueller, Jan trachtman, Julie Jost, Karen Horner, Thersea Dinpaoli, Loretta mcbride- Fleming
