To Whom It May Concern,

It is with great privilege that I write to you in recommendation of Interface Construction as a preferred contractor for Washington University. I have worked with many of their staff over the past 15 years on a variety of construction projects. They have the most dedicated employees that I have ever worked with.

There have been times when we have had a very short time line to get something done and I all I have to do is make a call and they are always there ready to assist me and get the project done and in the time frame that I need it completed. They communicate effectively and meet the most demanding challenges that might arise during a project. Neurology's projects vary from minor renovation to a major construction and Interface Construction as always is flexible and fully prepared to take on the task.

I highly recommend them as the main contractor for Washington University.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Christina Settlemoir

Manager, Purchasing Services
