Re: St. Louis County Health Clinic

To whom it may concern:

I am happy to write a letter of recommendation for Interface Construction. Interface construction has been a member of the Berkeley Community for 12 years. During my tenure as mayor, Mr. Hutchinson and Interface Construction have contributed to the community in a number of ways by: Participation in community events, donations to our local schools and advice on projects.

If you visit the website for Interface Construction, it displays the following characteristics: integrity, tenacious, trust, teamwork and dedication. These qualities are not only embodied by Sam Hutchinson, but by every member of the staff I have met. This makes for unique company.

The variety of projects that Interface Construction has completed over the years is impressive. The projects in the healthcare, commercial/retail, education, industrial and government/municipal markets and the fact that they are located within the municipality in which this building is built render them uniquely qualified to complete the St. Louis County Health Center project.

If you have any further questions, please contact me by using the enclosed phone number or email address. Thank you for your time and thoughtful consideration of Interface Construction for the St. Louis County Health Clinic.

Respectfully,

Kyra Watson, Mayor
City of Berkeley
